## **EXAMINER'S COMMENT/REASONS FOR ALLOWANCE**

### **Examiner's Comment**

1. Applicants' Amendment after Final rejection has been entered, because the amendment overcomes the outstanding rejections and puts the Application in condition for allowance. The amendment has been discussed and agreed upon in the telephone interview between the undersigned and Applicants' counsel, Mr. Shao-Hua Guo, esq., on June 28, 2004.

### ***Allowable Claims***

2. Claims 1 and 9 are allowed over the prior art of record.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: claim 1 has been amended by incorporating the limitations that the monomer stream and the initiator stream are ***separately formed and fed*** into the reactor. Applicant has also amended claim 1 by changing the open-ended transitional language "contains" to partially close-ended transitional language "consisting essentially of". Therefore, the amended claim 1 makes clear not only that the monomer stream and the initiator stream are formed and fed separately but also that ***the monomers are excluded from the initiator stream and the initiators are excluded from the monomer stream***. Such limitations are not taught or suggested by any of the prior art references of record.

No other prior art that anticipates or suggests fairly the instant claims has been located as of the date of this Office Action. Therefore, claims 1 and 9 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
